N >

Yes, Ron

I have taken it back in May of 1992. I finished it in March of 94. Today this is not so long. I took nine hours the first seminar and waited for the two years for the finishing of the course. I know Susan Clubb and she did an excellant presentation. This course, today, is for anyone who has an pet interest in Birds.

good luck and keep in touch,

Cherane, CAS (Certified Avian Specialist)
