N &gt;I'm curious to know if the Steve Martin Training tapes are worth the

N &gt;expense? Are there any other aids that me be of help, books or

N &gt;otherwise. We have read the Guide to a Well behaved Parrot.

Hi Dan,

I watched him on my video from my MARE tapes! I think he is very good with the positive approach with the feathered kids. I also think his training might get some parents in good positive feedback in all areas of living.

I say get the tape as I plan to do so myself and I use to teach "Personal Modifications" at the college as a Adjuct Prof....not good enough for the birds. I am also a breeder of the big Macaws and need all the assistance I can get with these adorable kids.

Hi Jim,

I am a transplant in FLorida from Indiana. Indianapolis is where I was born  
 and I guess I'll be making a visit there next year of our MARE Seminar.

I liked your post and agree whole heartedly. I am a Aviculturist and sold  
 one of my Greenwing baBies to Mike and he found me by this Echo. He happens  
 to live just about in my back yard.

I breed Hyacinths, Scarlets, Greenwings, Eclecuts, Congo Greys, Moluccans,  
 Blue and Golds, Red Front Macaws, Militaries and last but certainly not  
 least are my beautiful Rose Breast Cockatoos. All are in my house or on  
 my porch! They get the salt air from the ocean which is one block  
 away from our house.
